Istanbul Faculty of Medicine, U. of Istanbul Oct. 1978 to Sept. 1984

Saint Joseph French High School of the Christian Brothers, Istanbul 1970- 1978

I am especially interested in plastic and reconstructive surgery of the head and neck region. Functional endoscopic sinus surgery and middle ear surgery are also areas I enjoy operating on.

Surgical Experience

– 35 years as an ENT / Head & Neck surgeon: 20 years in Istanbul, Türkiye (1991–2011) and in Erbil, Iraq since 2011.
– More than 12,000 operations in my career, including over 5,000 nasal surgeries (rhinoplasty, septorhinoplasty, septoplasty), over 2,500 endoscopic sinus surgeries (FESS), over 1,500 ear surgeries (tympanoplasty, mastoidectomy, stapedectomy) and over 1,500 tonsillectomies / adenoidectomies.
– Istanbul ENT Center, Erbil (Dec 2011 – Nov 2026, surgical register): more than 4,000 operations, including over 500 FESS and over 2,000 rhinoplasties; currently 50–55 FESS per year.
– FESS: the frontal and sphenoid sinuses are opened whenever they are involved on CT, which is the case in more than half of the sinus patients in Erbil.
